

WELCOME TO PRAGUE

Thursday Evening Get-together

Enjoy your welcome drink and snacks while meeting the people that matter. After a short bus transfer from the hotel we meet on board of the 'Bohemia Rhapsody' for a river cruise visiting Prague's most beautiful monuments by night. The boat is equipped with a sliding glass roof over the single deck which offers magnificent views and can be removed in case of good weather.

Friday Evening Event

This year's location of the traditional Friday Conference Dinner will be kept secret as it promises to be

an exciting surprise. The location will take us back in history. Already the transfer from the hotel is part of the event being performed by Prague's historical tram. As the tram uses the usual train tracks departure times are not flexible. The very unique event location defines the dress code to be 'business casual'.

Saturday Networking Tour

After the bus ride towards the Prague castle area we will have a short lunch break in the monastery restaurant Velká Klášterní. Afterwards a guided

and exclusive visit of the historical Strahov is planned. From the Strahov monastery a short walk will bring us to the Prague castle and the tour ends with walking through the famous Golden Lane where Franz Kafka lived between 1916 and 1917 and where in the past the kings alchemists tried to produce gold.

Optional Programme for accompanying persons at Friday:

A two hour historical walking tour of the city weaving in quirky facts about the capital & its residents past & present.

THANK YOU

We would like to thank our sponsors for their kind support.

EMVA Business Conference 2017

15th European Machine Vision Business Conference
June 22th to June 24th, 2017
Prague, Czech Republic

International platform for networking and business intelligence.
Where machine vision business leaders meet.

www.emva.org

INTRODUCTION

What are the aims of the conference?

The conference unites business leaders and technical experts within the machine vision industry from Europe and around the world to present and discuss the trends and challenges of our business. It provides a unique platform in Europe for networking, establishing contacts and exchanging ideas. The annual EMVA Business Conference sets the course for developing and strengthening our industry in Europe.

Who should attend?

Professionals, executives, experts and analysts of the machine vision industry. Meet CEOs, managing directors, corporate strategists, marketing directors, technical managers and other executives of our business to exchange market intelligence and news of innovative technologies.

About EMVA

Founded in May 2003 in Barcelona, the European Machine Vision Association is an industry-driven networking framework, providing a constant source of exchange, information and inspiration. At present 100+ companies, 5 national machine vision associations and 9 scientific organizations are members – representing more than 20 countries. All EMVA activities and projects aim at boosting the development of the machine vision industry in a bigger, united Europe: statistics and market data, standardization, trade fairs, international marketing, public relations, research and networking events.
