EMVA MEMBER BOOTH

[General Information](#) | [EMVA Member Booth](#) | [The Show](#) | [Booth Modules/Packages](#) | [Reply](#)

Since its foundation in 2003 the EMVA continuously promotes the machine vision industry by means of conferences, forums, networking events and also by being present at globally relevant trade shows. In 2024 for the first time the EMVA together with seven co-exhibiting member organizations exhibited at the LogiMAT in Stuttgart. Read the review article.

Following the successful previous participation the EMVA is delighted to arrange a dedicated EMVA Member Booth at LogiMAT 2025 showcasing up to nine EMVA member companies, supported by attractive exhibition rates, and creating a central location to promote your company's products to the Logistics sector.

'Member Booth' for us means, that we take care of the whole process, from the layout phase through booth building up to personal support during the trade show days. Catering is offered to all participating co-exhibitors in the booth's central lounge & bar area.

Logistics & Material Handling is an increasingly important sector for the use of machine vision and image processing technologies. The trade show LogiMAT perfectly represents the Logistics industry, the show is very well attended by over 67 thousand visitors. EMVA Member Booths may also be seen at other vision tech relevant trade shows – this only depends on respective feedback from interested EMVA members.

In A Nutshell – What You Get

1

You significantly reduce your preparation efforts. The whole organization is done by the EMVA team. Being co-exhibitor, you just bring your laptops, samples and poster/roll-up with you.

2

In addition to your own marketing activities, you receive visibility by EMVA promoting the member booth via its marketing channels and media partners.

3

You use the booth catering area to meet & greet your customer.

4

You benefit from the high-level perception of Machine Vision linked with the EMVA. Even with a small booth area your brand receives the well-deserved attention and is recognized as member of the international EMVA community.

THE SHOW

INTERNATIONAL TRADE SHOW FOR INTRALOGISTICS SOLUTIONS AND PROCESS MANAGEMENT 11 – 13 MARCH 2025

The ever-changing markets require flexible and innovative logistics. Processes must be continuously monitored and optimized. This requires a sensitive awareness of an abundance of offerings to identify the products and solutions that optimize your internal processes.

Vision is an enabling technology for advanced logistics and the EMVA Member Booth is an excellent opportunity to increase visibility of your company within the sector.

LogiMAT provides the trade audience with a comprehensive review of all the main themes in the sector, from procurement to production and deliveries. At the start of the year international exhibitors showcase innovative technologies, products, systems and solutions for rationalisation, process optimisation and cost-reduction of in-company logistics processes.

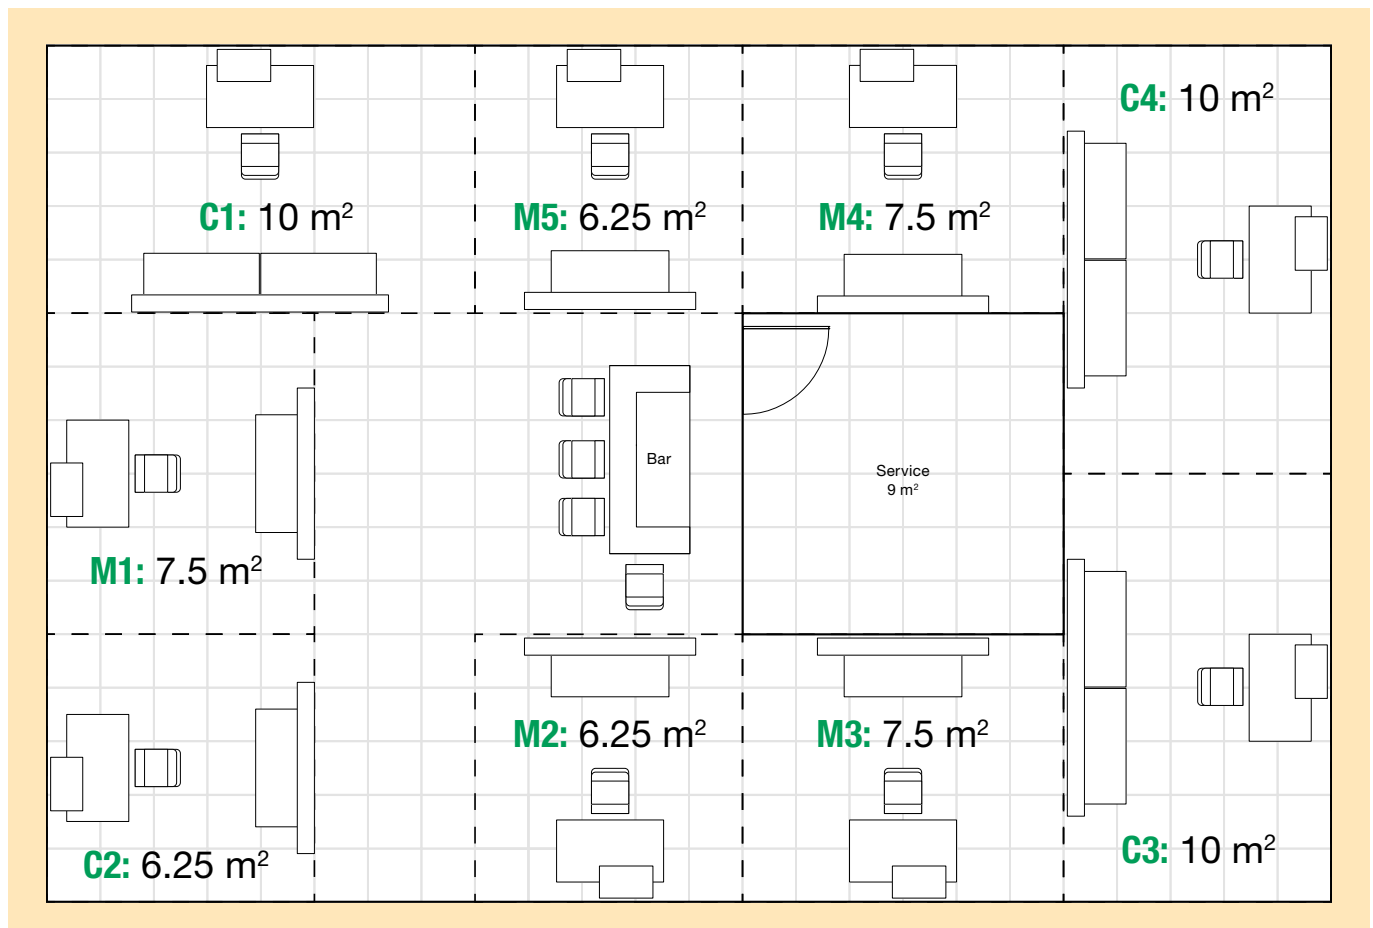

LogiMAT

How can companies best manage the raw material of the future – ‘data’ – efficiently and securely?

How can interfaces between operatives, production resources and intelligent robot assistants be defined, in order to optimise the workplace?

How can virtual reality help in making key decisions on future investment?
