

WELCOME TO SEVILLE

Thursday Evening Get-together

The Pura Vida roof-top terrace offers a unique set up, probably one of the most beautiful sunsets in the world, with the giralda as an omnipresent guest. A 15-min bus transfer brings us to the city center of Seville and after a 10-min walk we will enjoy the welcome drink and snacks while meeting the people that matter. The Conference Get-Together is sponsored by EMVA member Birger Engineering.

Friday Evening Event

The Guardiola Palace House (1880) is a true work of art, a reference in the Sevillian style and therefore is studied in universities.

Built in the middle of Sevillian romanticism movement it was a revolution because besides being the most complete private works of Sevillian eclecticism of the nineteenth century, it was anticipated with elements that would be the basis of Sevillian regionalist architecture; a movement that would have its splendor 50 years later with the Expo of 29. After a 10-min bus transfer and 5-min walk we will arrive at this year's Conference Dinner venue. The dress code is 'business casual'.

Saturday Networking Tour

This year's Saturday Networking Tour will take us to the historic city of Seville, the capital of the Spanish region and province of

Andalusia. With about 700,000 inhabitants, Seville is the fourth largest city in Spain, and it has the largest historic center of Europe. Before starting our guided tour, a typical Andalusian style lunch in one of the traditional tapas bars of Seville provides the opportunity to continue the personal exchange and networking. Then two mayor attractions of Seville are awaiting us:

THANK YOU

We would like to thank our sponsors for their kind support.

EMVA Business Conference 2023

21th European Machine Vision Business Conference
May 4th - May 6th, 2023
Seville, Spain

International platform for networking and business intelligence. Where machine vision business leaders meet.

www.business-conference-emva.org
www.emva.org

INTRODUCTION

What are the aims of the conference?

The conference unites business leaders and technical experts within the machine vision industry from Europe and around the world to present and discuss the trends and challenges of our business. It provides a unique platform in Europe for networking, establishing contacts and exchanging ideas. The annual EMVA Business Conference sets the course for developing and strengthening the Vision Tech industry in Europe.

Who should attend?

Professionals, executives, experts and analysts of the machine vision industry. Meet CEOs, managing directors, corporate strategists, marketing directors, technical managers and other executives of our business to exchange market intelligence and news of innovative technologies.

About EMVA

Founded in May 2003 in Barcelona, the European Machine Vision Association is an industry-driven networking framework, providing a constant source of exchange, information and inspiration. At present 150+ members - companies, national machine vision associations and scientific organizations – represent more than 20 countries. All EMVA activities and projects aim at boosting the development of the machine vision industry in a bigger, united Europe: statistics and market data, standardization, trade fairs, international marketing, public relations, research and networking events.

Anna Petrovicheva | OpenCV
- 10:20 – 10:50 Coffee Break
- 10:50 – 11:20 **Virtual Inspection Planning:
Ready for AI, Ready for Digitalization**
Petra Gospodnetic | Fraunhofer ITWM -
Institute for Industrial Mathematics
- 11:20 – 12:20 **Finding Talent in a Tough
Employment Market**
Nigel Jeremy | Collier Jeremy Ltd
- 12:20 – 12:40 Conference Wrap-Up / End of conference
- 13:15– 18:20 Saturday Networking Tour

WELCOME TO SEVILLE

Saturday Networking Tour (CONTINUED)

The cathedral of Seville, officially named #Catedral de Santa María de la Sede, is the largest church in the world, after St. Peter's Basilica in Rome and St. Paul's Cathedral in London. And of course, being in Seville it is a must to visit the famous Real Alcázar de Sevilla, which is the Royal Palace of Seville. The name ‚Alcazar‘ means castle in Spanish and is derived from the Arabic word al-qasr (fortress or palace). The complex of palaces is in the Mudéjar style, which is a architectural style with many influences from Moorish and Christian culture. It is probably the oldest palace still in use in Europe; when King Felipe V visits Seville, this UNESCO-listed palace is still his residence.

‘Tour of Perfumes’ for Accompanying Persons

Friday morning at 10 am. the guide picks up the group in the hotel lobby and after the short transfer to the city center the 2-hours ‘Tour de Perfumes’ walk starts. Discover the history of Seville in a unique way through the smells where you can live the olfactory experience of the different perfumes that have lived in this city. Our official guides will visit the most important places of the city, explaining the historical part and making the olfactory tasting.

BARCELÓ SEVILLA RENACIMIENTO

The Barceló Sevilla Renacimiento***** is well-known in the city for its architecture and design that evokes the Guggenheim Museum in New York, capturing the interest of the visitor at first sight. Located on the banks of the Guadalquivir River, a short walk from the Alameda de Hércules, famous for its bars and restaurants, and just a few minutes from all the historic sites of interest. The high-speed train station (AVE) is just 2.5km away and the San Pablo airport is 10km away.
